EDUCATION

- **Professional Bachelor's in Software Engineering – CFI-CIRAS**, Brazzaville (2021–2024)

- **Full-Stack Developer Internship – CFI-CIRAS** (Dec. 2024–July 2025)

- **Frontend Developer Internship – Ayokai** (Sept.–Nov. 2024)

- **Full-Stack Developer Internship – NANOCREATIVES** (Apr.–July 2024)

- **Git/GitHub – EDX** (Online, 2023)

CERTIFICATES

- Figma & Design Thinking – OpenClassrooms (2025)
- Project Management – HPLife (2024)
- Introduction to AWS – LeCloudFacile (2024)
- AWS Cloud Practitioner – LeCloudFacile (2024)
- Systems & Networks (CCNA I) – CFI-CIRAS (2023)

LANGUAGE SKILLS

- **French:** native
- **English:** intermediate B2

SKILLS

- Problem-solving & Self-taught Learning
- Web & Mobile Development
- Relational and NoSQL Databases
- Software Design and Architecture
- Project Management & Agile Methods
- UX/UI with Figma
- Integration of External Services
- Adaptability & Versatility

Professional Objective

Full-Stack Developer with a Software Engineering degree, I build solutions that solve real problems—not just code. I'm looking to join a team where innovation drives strategy, creating robust, secure, and scalable products. I want to grow in a demanding environment where technology delivers real, lasting impact for users.

PROFESSIONAL PROJECTS

- **CFI-CIRAS – Full-Stack Developer Aug. 2025**

Developed **CFI-Recrute,** a web and mobile hiring platform. Backend structure, secure API setup, notifications, and dashboard features.

Technologies: *Next.js, Django REST Framework, PostgreSQL*.

- **CFI-CIRAS – Full-Stack Developer Jan. 2025**

Developed **CFI-Digital**, a solution for student registration, payments and academic results. Secure API flows (auth, Mobile Money/Airtel Money) and smooth front/back connection.

Technologies: *React Native, Django REST Framework, PostgreSQL*.

- **Ayokai – Frontend Developer Oct. 2024**

Contributed to **KOMKABA** with a scalable microservices setup. Integrated many payment systems and improved the user experience.

Technologies: *Vue.js, Node.js, Express.js, MongoDB, Jira, Confluence*.

- **NANOCREATIVES – Full-Stack Developer May 2024**

Built the Focus platform and an internal CMS. Designed flexible interfaces and secure REST APIs.

Technologies: *React.js, Redux, Next.js, Storybook*.

INTERESTS

- High-impact technical problem-solving
- Graphic design & UI/UX (mockups and interface creation)
- Innovation and product value creation
- Promoting diversity and inclusion in the tech industry
